Teaching Certification Payment Reminder

The annual teaching practice fee must be paid no later than May 31 each year. Members (especially those who are new to role or district) are encouraged to ensure that they are set up for payroll deduction with their districts for the fee.

If payroll deduction is not set up, payment can also be made directly. Information about the deadline and fee structure is available below.

[Teaching practice fee deadline info](#)

Members who are retiring but considering working in schools or a district after retirement will want to consider continuing to pay their annual fee, so that they remain eligible to work. The process to reapply after certification has lapsed can be quite complex.
