Teacher Regulation Branch Online Portal

All members are encouraged to ensure that they are able to log in to their Teacher Regulation Branch account. You can easily create an account if you do not have one yet. It is important to ensure that the contact information they have on file is accurate, and specifically that the email account and phone number are up to date and current.

There are times when the Teacher Regulation Branch might send time-sensitive or personal correspondence, and having the correct contact information ahead of time is prudent.

You can access your TRB account here:
