Thinking of moving districts?

It is more and more common that Principals and Vice-Principals across the province are looking for job opportunities in other districts. Most often, this is for reasons such as proximity to home, career satisfaction and advancement, or location preference.

When a member is considering applying for or accepting a position in another district, they are encouraged to contact the Member Support Services team, who can confidentially provide insights into contract comparisons and other factors for consideration.

A change in district can often be an exciting new chapter in a Principal's or Vice-Principal's career, and can be a significant career and life decision.

Members who are considering a move to a new district, and would like to speak to a Director of Member Support Services about their situation, are welcome to contact the MSS team at mssinfo@bcvpva.bc.ca
