Pension/Retirement Support

All Principals and Vice-Principals in the BC Public School system are part of the same Teachers Pension Plan as teachers and their senior colleagues.

The Member Support Services team at BCPVPA is able to provide high level support and information about the Teachers' Pension Plan, and the different options that are available to members of the plan. Members are encouraged to check their individual information for accuracy. It is available by logging on to the "My account" section on the [TPP website](#), and it should be updated later this month.

Members with specific questions related to their personal pension plan situation and statement are encouraged to contact the TPP directly. Contact information for the Teachers' Pension Plan is [available here](#).
